

## The new partnership between PNEUTRONIC and the PHS GROUP – Your system service that is now available for the entire retrofitting range of MFA and GKP fine blanking presses from Feintool / Osterwalder.

**Partnership between the PHS GROUP and PNEUTRONIC – reinforcement thanks to bundled experience.**

Thanks to its long years of experience, the PHS GROUP has established itself as an expert for presses including HFA fine blanking presses as regards the aspects retrofitting, the supply/production of spare parts and the assembling/repairing, not forgetting commissioning.

Pneutronic AG has specialised itself in the field of control technology which underlines its commitment to quality as the official solution partner of BECKHOFF Automation. Pneutronic AG has successfully equipped more than 130 fine blanking presses with new control technology since the 1990s.

With this partnership, we are combining our years of knowledge and supplementing our system service for your benefit also for MFA/GKP fine blanking presses in the manner you are used to. Learning by Doing – not by wasting your valuable time, but taking place using machines in our plant.

**We, the PHS GROUP and PNEUTRONIC, are able to offer you solutions that are modular and suitable for all budgets and which reduce the risk of unplanned machine downtimes and costs. Benefit from the experience we have gained in the servicing of mechanical and hydraulic fine blanking machines.**

**The following comprehensive system services are now available for MFA/GKP presses:**

- MFA/GKP presses of all sizes (40kN-2,500kN)
- A complete sealing of your presses by the latest state of the art
- Manufacturing and supplying of spare parts in an original equipment manufacturer quality
- Extension of the tools service life by restoring the press geometry
- Weld repairs
- Conversion/modernization together with our new partner PNEUTRONIC
  - Control system/process optimisation
  - Mechanical system
  - Valid safety standard
  - Hydraulic system / reoptimized functional modules
- Automation:
  - Coil line, decoiler, feed roller, roller levelers
  - Scrap chopper, on the machine side
- A service agreement can include:
  - Teleservice via the press control system
  - Annual safety inspections (German Accident Prevention Regulations UVV)
  - Regular inspections/preventive planned maintenance

**Your benefits:**

- Remote hotline for a quick analysis and troubleshooting
- Regular documents inspections at calculable terms
- Inspection personnel that knows your installations
- Annual safety inspections conform with valid guidelines during an inspection of the press
- Planned eradication of technical problem areas, electrical, hydraulic and mechanical
- This considerably reduces the risk of longer and sudden plant downtimes

**Your next step in the direction of preventive maintenance at attractive terms:**

Visit us – personally or virtually – and convince yourself.

We would then be pleased to present our system service to you using our machines by appointment.

Contact us by telephone or email so that we can discuss the content of the service measures or a service agreement:

**m.huebschle@phs-group.com +49 (0) 151 4022 7020**

**remo.kissling@pneutronic.ch +41 (0) 32 613 27 29**

Feel free to inform us of the number and type of your plant at the same time so that we can offer your company attractive terms.

With us – the **PHS GROUP** and **PNEUTRONIC** – you produce carefree.

Best regards,

**PHS GROUP** and **PNEUTRONIC**
